REQUEST FOR PASTURE-TO-PASTURE MOVEMENT PERMIT (CON'T.)

In accordance with Federal Regulations (9CFR Sects 77.10-77.18) I understand and agree that:

1. The cattle described herein are from a **valid beef breeding herd**, established more than six months, moving for grazing without change of ownership.
2. I will have all sexually intact cattle 18 months of age or older TB tested within 12 months before final approval of this permit or within 30 days after arrival at destination.
3. For subsequent pasture-to-pasture movements while California is less than TB-Free, I will have all sexually intact cattle 18 months of age or older retested for TB within three (3) years of the prior TB test.
4. A copy of the TB test documents will be submitted with this application.
5. Breeding cattle 18 months of age or older added to my herd in California will be TB tested negative before entering the herd. All herd additions must have official individual identification.
6. Breeding cattle 18 months of age or older sold in the destination state must go directly to a State or Federal slaughter plant, a State Approved Feedlot, a Federally Approved market (with market notification), or be TB tested negative in the last 12 months.
7. If cattle test positive for TB or brucellosis in the destination state, the herd will not be allowed to move until it has been fully evaluated by the designated State epidemiologist.
8. I will account for all animals on this agreement.
9. This agreement may be changed if the risk of disease changes. Should further downgrade in State TB status occur, the herd may not be able to return on this agreement.
10. The AVIC and State Veterinarian in the origin and destination states must approve this agreement and any exceptions to this agreement.
11. Failure to comply with the provisions of this agreement may result in revocation of this permit and/or loss of use of any future pasture-to-pasture permits, legal action and/or fines.
